BASIS OF AWARD / EVAL FACTORS

**GENERAL SUBMISSION
REQUIREMENTS AND INSTRUCTIONS,
EVALUATIONS AND
CONTRACT AWARD**

1. OVERVIEW.

Proposals received in response to this solicitation for the Replacement of Barracks at Fort Meade, Maryland that will be evaluated on Lowest Price Technically Acceptable method of obtaining a best value. The Contracting Officer will award to the responsible offeror that represents the best value considering all non-price factors described herein.

2. BASIS OF AWARD.

2.1. ELIGIBILITY FOR CONTRACT AWARD

In accordance with the requirements of Part 9 of the Federal Acquisition Regulation (FAR), no contract shall be entered into unless the Contracting Officer ensures that all requirements of law, executive orders, regulations, and all other applicable procedures, including clearances and approvals, have been met. This includes the FAR requirement that no award shall be made unless the contracting officer makes an affirmative determination of responsibility. To be determined responsible, a prospective contractor must meet the general standards in FAR Part 9 and any special standards set forth in the solicitation.

2.2. SOURCE SELECTION USING THE LOW-PRICE, TECHNICALLY-ACCEPTABLE (LPTA) METHOD

The Government shall evaluate the lowest-priced offeror. Should that offeror's proposal be found to be technically acceptable in all non-price factors, the Government shall stop evaluations and make direct award to said offeror, assuming their price is found to be fair and reasonable. Should the proposal not be technically acceptable in all non-price factors, or should the price offer not be found fair and reasonable, the Government shall evaluate the next lowest-price offeror. This process will repeat until a technically acceptable offeror whose price offer is fair and reasonable is selected.

The Government will award a firm fixed price contract to the responsible Offeror whose technically acceptable proposal represents the lowest price.

The basis of award will be the Government's assessment as to which proposal is determined to be technically acceptable and is the lowest price determined fair and reasonable through price analysis. Offerors that do not receive an acceptable rating (technically acceptable), will not be selected, regardless of their price (lowest Offeror may not be selected).

Offerors are reminded to include their best technical and price terms in their offer and not to automatically assume that they will have an opportunity to participate in discussions or be asked to submit a revised offer. The Government may make award of an acceptable proposal without discussions, if deemed to be in the best interests of the Government.

3. GENERAL SUBMISSION REQUIREMENTS AND INSTRUCTIONS

For purposes of this RFP, an "Offeror" may include a group of two or more entities that have formed a "contractor team arrangement," as that term is defined in the Federal Acquisition

Regulation, Section 9.601. In the case of entities that have formed a contractor team arrangement, the experience and performance history of any member of the team, whether or not gained while working with the other member(s) of the currently-proposed contractor team arrangement, may be considered as a part of the evaluation of the Offeror's proposal.

In the case of contractor team arrangements involving a prime contractor and subcontractor(s), where the prime contractor submits the proposal in response to this RFP, the prime contractor must have completed at least two of the total number of projects submitted for Factor 1 for consideration in response to the past performance requirements of this RFP. If information about a subcontractor is submitted and considered during the evaluation, the expectation is that this subcontractor will perform this work. Before utilizing another subcontractor for this work, the Government must consent.

An Offeror that relies upon the performance history of a member or members of a proposed contractor team arrangement will be expected to maintain that arrangement during performance of any contract awarded to that Offeror under this RFP. As a part of their proposal, the Offeror must provide a contractor team agreement signed by all parties, identifying the legal name(s) of all entities and describing the nature of each entity's relationship (teaming/partnering, joint venture, etc.) and its role on this project. Past Performance information of other than the Offeror will not be considered without the teaming arrangements. In the case of joint ventures, at least one project will be submitted from each member to demonstrate past experience. This documentation shall be provided in applicable section of the Offeror's proposal.

3.1.1 Media, Page Size, Margins, Fonts, and Page Limitations.

Submit only the electronic files specifically authorized elsewhere in this section. Do not submit excess information, to include audio-visual materials, electronic media, etc. Do not include links to information on websites in lieu of incorporating the information physically into the proposal. Except where another size is specifically authorized for a specific submission, use only 8 1/2" x 11" paper. Use at least 1 inch margins, which may include headers and footers. Do not justify the right margin. Ensure that all text and graphics are clearly legible. Do not use a font size smaller than 10, unusual font styles such as script, or condensed fonts. For submissions with page limitations, the pages will be counted as follows: One side of the paper is one page; information on both the back and front of one sheet of paper will be counted as two pages. Where authorized, a foldout sheet will count as one page. Pages furnished for organizational purposes only, such as a "Table of Contents" or divider tabs, are excluded from page limitations.

3.1.2 Conditioning of Offer.

Do not include exceptions to the terms and conditions of the solicitation in either the technical or price proposal volumes. Inclusion of any standard company terms and conditions that conflict with the terms and conditions of the solicitation may result in a determination that the offer is unacceptable and thus ineligible for award. Resolve questions about the terms and conditions or technical requirements of the solicitation prior to submission of the offer; see Section 7, located in Section 00 20 00, for instructions of how to submit inquiries.

3.1.3 Restrictions on Offeror-Provided Information.

"Confidential" projects cannot be submitted to demonstrate capability unless all of the information required for evaluation as specified herein can nonetheless be provided to the Government as part of the offeror's technical proposal. Offerors that include in their proposals information that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, must clearly mark the information in accordance with FAR 52.215-1, "Instructions to Offeror – Competitive Acquisition", paragraph (e), "Restriction on disclosure and use of data." Files shall not contain classified data.

3.2 GENERAL PROPOSAL PREPARATION.

The proposal shall be submitted as summarized below and as required by the specifications.

- 1. Volume I – Technical Volume**
 - a. Factor 1: Past Performance
 - b. Factor 2: Schedule Approach

- 2. Volume II – Price Volume**
 - a. Proposal Cover Sheet

 - d. Completed 52.204-8, printed out and applicable checkmark applied.
 - e. Offer Guarantee

The technical volume includes all required information relating to the “non-price” evaluation factors. The two volumes must be submitted as separate, physically distinct volumes. The information in the two volumes is evaluated separately and independently. Do not cross-reference similar material between the non-price and price volumes.

3.2.1 Marking of Proposal Volumes.

Mark each volume as either the “Price Volume” or “Technical Volume”. In addition, mark the outside front cover of each volume with the project title and location, solicitation number, name and address of the offeror, and volume copy number. (Markings which identify the offeror are not required on either the back cover or on the spine/binding.)

All projects must have

a construction completion date no earlier than seven (7) years preceding the original date of issuance of this solicitation. Projects that have a Beneficial Occupancy Date (BOD) within the same date range will also be considered.

2. Experience working on military installations with privatized utilities and badging requirements

If Offeror submits more than three (3) pages for any example project description, the additional pages will not be evaluated. Start each example project on a new page.

Please number your project submissions and include a matrix similar to the one below for purposes of matching your submissions to their applicable experience areas.

Evaluation Areas	Experience 1 - Include project submission # meets this requirement	Experience 2 - Include project submission # meets this requirement	Experience 3 - Include project submission # meets this requirement

3. Experience employing physical security and ATFP			
4. Experience with total building commissioning			
5. Experience with site improvements and paving of 10,000 SF or greater			

4.1.2 Evaluation Criteria

Acceptable: The project portfolio will be deemed recent and relevant if it meets all of the following requirements:

- (a) The proposal demonstrates that the Offeror (including the Prime contractor) and any subcontractor(s) the Offeror may choose to employ or partner with) performed three (3) relevant projects that includes a minimum of three (3) of the five (5) work elements listed above
- (b) All projects were substantially completed within the last seven (7) years. Projects that have a Beneficial Occupancy Date (BOD) within the same date range will also be considered
- (c) These projects must be of relevant scope and complexity and have either a minimum project size of 50,000 Building Gross Square Foot (BGSF) or demonstrate a minimum completion value of \$50,000,000 considering adjustment for escalation from project completion to 2022 (all escalation values are to be labeled as escalated and the Offeror must explain in detail their escalation rationale, which must include any formulas, calculations, assumptions, etc.) and address the discussions requested on Attachment A, "Experience in Relevant Projects" while meeting the teaming agreement requirements above.

4.2 Tab 1 (Part 2) of the Technical Proposal: Factor 1 Past Performance

4.2.1 Submission Requirements

The Offeror shall submit information on the three (3) projects per paragraph 4.1 demonstrating recent and relevant past performance. The project narratives submitted by the Offeror must demonstrate successful completion of previous contracts of similar size, scope, and complexity to this project. The burden of providing detailed, current, accurate and complete past performance information rests with the Offeror.

For each of the projects submitted, provide a copy of the Contractor Performance Assessment Reporting System (CPARS) report, or USACE Past Performance Questionnaire (PPQ) (Attachment B) from a representative of the owner. The Offeror must request that their client complete the USACE Past Performance Questionnaire for Relevant Experience (Form PPQ-0) and submit the questionnaire as part of the Offeror's technical proposal. The Offeror may provide an explanation if the performance evaluation rating is less than satisfactory. Offerors are encouraged to follow-up with clients/references to ensure timely submittal of questionnaires.

If the Offeror is unable to obtain a completed PPQ from a client for the project(s) before the proposal closing date, the Offeror must complete and submit with the proposal the first page of the PPQ (Attachment B) for projects submitted under the tab for EXPERIENCE IN RELEVANT PROJECTS, which will provide contract and client information for the respective project(s). Ensure correct phone numbers and email addresses are provided for the owner point of contact.

Previously completed PPQs may be submitted provided that the documents do not reference any other solicitations. Submitted PPQs must only reference this solicitation.

Past performance information may be obtained from any other sources available to the Government, to include, but not limited to, the Past Performance Information Retrieval System (PIIRS), Federal Awardee Performance and Integrity Information System (FAPIIS), Contractor Assessment Reporting System (CPARS) or other databases using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the Offeror's proposal; interviews with Program Managers, Contracting Officers, and Fee Determining Officials; and the Defense Contract Management Agency. The information obtained from these sources will be evaluated supplementary to the past performance questionnaires.

4.2.2 Evaluation Criteria:

Past performance will be initially evaluated to determine whether the Offeror's present/past performance is recent, and relevant or not relevant to the effort to be acquired. Past performance will be considered recent if it has been completed within the last seven (7) years or substantially complete at the time the proposal is submitted. It will be considered relevant if it is similar in size, scope, and complexity to this project.

Second, the past performance evaluation should determine how well the Offeror performed on the prior contracts. The past performance evaluation performed in support of a current source selection does not establish, create, or

change the existing record and history of the Offeror's past performance on past contracts; rather, the past performance evaluation process gathers information from customers on how well the Offeror performed those past contracts.

NOTE: In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the Offeror shall be determined to have unknown (or "neutral") past performance. In the context of acceptability/unacceptability, a neutral rating shall be considered "acceptable."

In conducting the past performance evaluation, each Offeror shall be assigned one of the ratings in accordance with the table below.

Adjectival Rating	Description
Acceptable	Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort, or the Offeror's performance record is unknown. The Offeror demonstrates an overall past performance rating of Satisfactory or better on all projects submitted.

(b) Enrollment and verification requirements.

(1) If the Contractor is not enrolled as a Federal Contractor in E-Verify at time of contract award, the Contractor shall--

(i) Enroll. Enroll as a Federal Contractor in the E-Verify program within 30 calendar days of contract award;

(ii) Verify all new employees. (iii) Verify employees assigned to the contract. For each employee assigned to the contract, initiate verification within 90 calendar days after date of enrollment or within 30 calendar days of the employee's assignment to the contract, whichever date is later (but see paragraph (b)(4) of this section).

(2) If the Contractor is enrolled as a Federal Contractor in E-Verify at time of contract award, the Contractor shall use E-Verify to initiate verification of employment eligibility of--

(B) Enrolled less than 90 calendar days. Within 90 calendar days after enrollment as a Federal Contractor in E-Verify, the Contractor shall initiate verification of all new hires of the Contractor, who are working in the United States, whether or not assigned to the contract, within 3 business days after the date of hire (but see paragraph (b)(3) of this section); or

The Contractor shall follow the applicable verification requirements at (b)(1) or (b)(2), respectively, except that any requirement for verification of new employees applies only to new employees assigned to the contract.

(4) Option to verify employment eligibility of all employees. The Contractor may elect to verify all existing employees hired after November 6, 1986 (after November 27, 2009, in the Commonwealth of the Northern Mariana Islands), rather than just those employees assigned to the contract. The Contractor shall initiate verification for each existing employee working in the United States who was hired after November 6, 1986 (after November 27, 2009, in the Commonwealth of the Northern Mariana Islands), within 180 calendar days of--

(i) The Department of Homeland Security (DHS) or the Social Security Administration (SSA) may terminate the Contractor's MOU and deny access to the E-Verify system in accordance with the terms of the MOU. In such case, the Contractor will be referred to a suspension or debarment official.

(ii) During the period between termination of the MOU and a decision by the suspension or debarment official whether to suspend or debar, the Contractor is excused from its obligations under paragraph (b) of this clause. If the suspension or debarment official determines not to suspend or debar the Contractor, then the Contractor must reenroll in E-Verify.

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

Domestic construction material means--

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both-

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if--

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 55 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all components used in such construction material. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet),

castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of "cost of components".

Fastener means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws.

Foreign construction material means a construction material other than a domestic construction material.

Foreign iron and steel means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign.

Least developed country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a least developed country; or

Least developed country construction material means a construction material that—

- (1) Is wholly the growth, product, or manufacture of a least developed country; or
- (2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

United States means the 50 States, the District of Columbia, and outlying areas.

WTO GPA country construction material means a construction material that--

- (1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) Construction materials.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the domestic content test of the Buy American statute is waived for construction material that is a COTS item, except that for construction material that consists wholly or predominantly of iron or steel or a combination of both, the domestic content test is applied only to the iron and steel content of the construction material, excluding COTS fasteners. (See FAR 12.505(a)(2)). In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements (FTAs) apply to this acquisition. Therefore, the Buy American restrictions are waived for designated country construction materials.

(2) The Contractor shall use only domestic or designated country construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

(3) The requirement in paragraph (b)(2) of this clause does not apply to information technology that is a commercial product or to the construction materials or components listed by the Government as follows:

[Contracting Officer to list applicable excepted materials or indicate ``none"]

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that--

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the restrictions of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent;

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) *
Item 1:			
Foreign construction material....
Domestic construction material...
Item 2:			
Foreign construction material....
Domestic construction material...

[* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued)].

[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

(End of clause)

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

(End of provision)

52.236-1 PERFORMANCE OF WORK BY THE CONTRACTOR (APR 1984)

The Contractor shall perform on the site, and with its own organization, work equivalent to at least **twenty (20)** percent of the total amount of work to be performed under the contract. ** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$15.00) or 13658 (\$11.25). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of

the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination

- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
